We grant franchises to operate Brain Balance™ Centers that offer an effective and replicable non-medical, non-pharmaceutical program designed to help children become more focused, improve their academic performance, and exhibit positive behavior, resulting in enhanced communication and social interaction skills. The Brain Balance Program® is a comprehensive, individualized program that integrates physical and cognitive exercises with dietary change. The goal of the Brain Balance Program® is to correct a fundamental imbalance between the two hemispheres of the brain – a "communication breakdown" that results in a range of negative symptoms and behaviors. The Brain Balance Program® integrates physical activities (sensory-based stimulation and motor exercises) with effective educational and behavioral methods, as well as supportive nutritional initiatives, in order to promote optimum brain and body function.

The total investment necessary to begin operation of a Brain Balance™ Center ranges from \$259,386 to \$481,571. This amount includes \$61,200 in initial fees set forth in Item 5 that must be paid to the franchisor before you open your Center.
