The franchisee will operate a dine-in and carryout KFC outlet, which prepares and sells chicken and other menu items KFCLLC approves.

The total investment necessary to begin operation of a newly constructed KFC outlet ranges from \$1,442,600 to \$2,771,550. This includes \$45,000 to \$50,000 that must be paid to KFCLLC or its affiliates. The total investment necessary to begin operation of a reopened or remodeled former KFC outlet, or converted KFC outlet ranges from \$1,008,600 to \$2,221,550. This includes \$45,000 to \$50,000 that must be paid to KFCLLC or its affiliates.

KFCLLC also offers multi-unit development opportunities. The total investment necessary to begin exercising development rights is estimated to be \$135,000 to \$540,000 (based on the expectation that you will develop 3 to 12 outlets during the term of the development agreement), determined by multiplying the number of new outlets you agree to develop by \$45,000, all of which must be paid to KFCLLC.
