Franchisor franchises the right to operate a restaurant offering and selling specialized, made-to-order macaroni and cheese dishes, including gluten-free options, and related food and beverage items to the public for dine-in, takeout, delivery, catering and “bake-at-home” under the MR. MAC’S name and mark.

The total estimated initial investment necessary to begin operation of a MR. MAC’S franchise ranges from \$373,200 to \$781,500. This includes \$30,000 to \$35,000 which must be paid to the franchisor or its affiliates.

Franchisor also offers qualified parties the right to open and operate multiple restaurants in accordance with a development schedule the parties agree to under Franchisor’s form of development agreement. The total investment necessary to begin operations under a development agreement will depend on the number of restaurants we grant you the right to open. By way of example, the total investment necessary to begin operations under a development agreement for the right to open and operate three restaurants ranges from \$403,200 to \$806,500, which includes \$60,000 that must be paid to the franchisor or its affiliates, which is a portion of the development fee due upon signing. This estimate includes the appropriate development fee you must pay to franchisor upon execution of the development agreement, as well as the total estimated initial investment to open and commence operations of your first restaurant.
