The Franchise offered is a NATIONAL PROPERTY INSPECTIONS franchise that provides residential and commercial inspection related services to prospective buyers, lenders, insurance companies, field service companies and other interested parties. The purchase of the franchise system includes training in the building and operation of an inspection business, training in sales and marketing, tools and equipment, computer, training materials, training in electrical, mechanical, plumbing, varied inspection techniques and the like.

The total investment necessary to begin operation of a National Property Inspections franchise is \$40,700 - \$43,000. This includes the \$34,900 franchise fee that must be paid to the franchisor or affiliate.

WE know that the geographic size of each territory is less important than the number of inspection opportunities it contains. OUR territories are based on a combination of demographic factors which include housing units and real estate transactions, real estate agents, commercial bankers and population.

Because each NATIONAL PROPERTY INSPECTION FRANCHISE has protected, exclusive territory, WE encourage our network of owners to proactively support each other by sharing marketing initiatives in adjacent territories, continuing education opportunities, and participating in a variety of support activities such as our annual conference.
